

Setting up Equation Editor as a menu button

(Note: Each student needs to do this once with their login. Then it will be there for them each time they sit at that same computer.)

1. Log in and open Word.
2. Choose View, Toolbars, Customize...
3. Click the Commands tab, then Insert on the left and scroll down to Equation Editor on the right.
4. Click on Equation Editor and drag it onto a toolbar where you'd like it to live!

Use these buttons for more math options!
